RICHMOND TOBACCO MARKET.

CONDITION OF THE MARKET.

JUNE 10,1880.

During the month of May (or since the rain) there has been a decided improvement in the general tone of the market, and we take pleasure in noting a general increase in receipts, inspections, and sales. The present indications are that for the remainder of the season the receipts and inspections will be full, and, if desirable and in good order, prices will rule s iff with an upward tendency. For the past three months (owing to most unfavorable weather for handling the crop) our market has labored under the most serious disadvantage of having nothing but odds and ends with which to operate. The receipts from March 1st to May 20th were not only excessively small, but were almost exclusively of tobaccos in bad order, which, with an unprecedented scarcity of stock, had for the time a most depressing influence upon the trade; therefore it would be most unreasonable to accept the transactions under such of stock, had for the time a most dipressing influence upon the trade; therefore it would be most unreasonable to accept the transactions under such circumstances either as a type of the market or a basis of neuro calculation. In demonstration of this it is most notable that whenever a desirable sample or lot of samples are presented they are eagerly sought, and meet with ready sale at good prices. During the latter part of the mouth there was a decided improvement in all classes, especially in bright wrappers and fillers. Fine bright wrappers are very scarce and in demand. We have never known this market so entirely destitute of good dark tobaccos as it is at present. We don't know of a single fine package of this class to be had. It is now renerally conceded that there will be an average crop of bright and about three fourths of a crop of dark tobaccos planted.

The following are the quotations:

LOUISVILLE LEAF-TOBACCO MARKET. JUNE 8.—The offerings were reduced, and the situation was dult in every way. The sales aggregated 164 hogsheads. JUNE 8.—The offerings were reduced, and the situation was dult in every way. The sales aggregated 164 hogsheads.

Contrary to the expectations of many the whole Italian contract was awarded on Satorday, and, the probabilities are, at low prices. The contract was for 13,000.006 kilos, or about 19.000 hogsheads of Kentucky lobacco of the crops of 1879 and 1878, and the successful bidder was Matthias, whose New York agent is the Aberheim firm. The type quantities are 16 per cent, first grade, 60 per cent, second grade, and 24 per cent, third states of the contract and the second grade, and 24 per cent, third states of the contract and the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and 24 per cent, third states in the second grade, and the second grade, and the second grade in the second grade, and in limited supply, have obsplayed considerable courage, which is the more conspicuous, as they preferred to take the whole contract instead of only a part. The contract was divisible into allotments of teaths.

The Night-Street Homes sold 20 hogsheads: 5 hogsheads Henry-County cutting lugs and trash at \$8.80, \$8.30, \$6.30, \$5.30, \$3.40, 2 hogsheads From dale-County (Tenn.) leaf at \$6.50, \$4.50, \$3.20, \$3.10; 1 hogshead Hart-County common leaf and lugs at \$5.50, \$4.60; 2 hogsheads Warren-County common leaf and lugs at \$6.50, \$4.50, \$3.20, \$3.70, \$3.50, \$3.20, \$3.70, \$3.50, \$3.35, \$6.50,
